

# HAVE YOUR SAY

Murray Bridge Local Drug Action Team  
Family & Friends Survey

## About the Survey

The Murray Bridge Local Drug Action Team is developing an early intervention and prevention project for young people and families to counteract drug and alcohol misuse which can lead to conflict and violence issues in the community.

As part of this initiative we want to find out from parents, caregivers, family members, friends and from young people what the contributing factors are for young people to develop problems with substance use.
